Subject: Microsoft Settlement

First I'd like to take this opportunity to tell you how much I respect you for the job you are doing during these trying times. I also find you to be very articulate and a pleasure to listen to on the tv. Now to the matter of Microsoft. Settle it, end it. Enough is enough. This is America and very few of us would expend money and not expect to get rewarded for it. There are alot of laws that have changed over our existance and by tomorrow they will change some more. Microsoft is innovative and forceful-thats what makes America what it is. Microsoft employs alot of people and is extremely beneficial to charities. Placing their units in underpriviledged schools is a benefit to America and its children. Yes it creates advertising, but come on, who in America or elsewhere doesnt know Microsoft already-thats good govt. The good outweighs the bad-the majority is served. All "good" attorneys tell their clients to settle immediately and get on with their lives-please let America get on with their lives regarding this matter-plus if they mess up again-hit them again-simple. MOVE ON. Thank you for your time,

Sincerely,

Debra Collard
